SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.
- Effective 07/01/17, there will be a shuttle available until the Pfeiffer Canyon Bridge reopens (estimated reopening date from Caltrans is September 2017) seven days a week, 1200-2000. North shuttle leaves every hour starting at noon. South shuttle leaves every 15 minutes from Loma Vista to Nepenthe. The last shuttle from north to south is at 1700 hours. The last shuttle from south to north is 1900 hours.
- Pfeiffer Big Sur State Park will reopen to the public on 07/01/17 after an 11-month closure due to the Soberanes Fire and winter storms.
- Julia Pfeiffer Burns State Park, Andrew Molera State Park, and Highway 1 at Pfeiffer Canyon Bridge remain closed.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Monitor Stage:

- Mono County: West Walker River at Highway 395 below Little Walker

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 3	Preparedness Level 2	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Spring, Vegetation Fire, Mariposa County

Location: Hwy 49 x Allred Rd., South of Mariposa

Jurisdiction: State DPA, SRA, Madera-Mariposa-Merced Unit

Start Date: 1346

Per ICS-209 and the Cal OES Duty Officers as of 07/04/17 at 0745 hours:

- 225 acres grass and brush, 50% containment
- Expected containment date: 07/05/17
- Type-3 Incident Management Team assigned
- 35 single residential structures threatened, 1 damaged
- Mop up around structures
- 3 Local Government Water Tenders assigned

FMAG

- On 07/02/17 an Fire Management Assistance Grant (FMAG) application was received and placed on hold.

Deployments

- 1 Cal OES Fire Rescue Branch Assistant Chief assigned

Evacuations

Per Cal OES Law Duty Officer as of 07/04/17 at 1230 hours:

- Evacuations have been lifted, area is only open to residents

FIRE ACTIVITY

Road Closures

- Roadways are open with traffic controls in effect for the area, residents only from Hwy 49 to Morningstar Ln

Shelter

- The Woodland Elementary School Shelter was closed on 07/03/17

Derrick, Vegetation Fire, Fresno County

Location: Los Gatos Creek, West of Derrick, West of Coalinga

Jurisdiction: State DPA, SRA/FRA

Start Date: 07/02/17 at 2228 hours

Per Cal OES Fire Duty Officer (FDO) on 07/04/17 at 0745 hours:

- 1,538 acres, 40 % containment
- Expected containment date: 07/06/17
- Type-3 Incident Management Team assigned
- Line improvement and construction, mop up, patrol and monitor fire perimeter
- 9 Cal OES Engines
- 6 Local Government Engines
- 1 Water Tender assigned

Deployments

- 1 Cal OES Fire Rescue Branch Assistant Chief assigned

WEATHER OF CONCERN

Weather of Concern

- A weak disturbance may produce fast-moving, dry thunderstorms for portions of California mountainous, valley and foothill areas.
- Dry and warm conditions will continue through the 4th of July with typical afternoon and evening breezes throughout portions of Northern and Southern California. .
- High pressure building over the Four Corners region will bring a warming trend to Southwestern California for much of the week.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Areas of gusty afternoon S to SW winds over eastern and far northern areas today and Wednesday.

*** Thunderstorms eastern areas Wednesday now look less likely ***

For the next week, high pressure will remain anchored over or near the 4-Corners region along with a low pressure trough in the Gulf of Alaska to along the Canadian Coast. That weather pattern will continue to keep warm, dry weather over the Northern California region in general. Inland areas will see afternoon temperatures climb to 5-8 degrees above normal later this week through the weekend. Humidity will generally range from 12-25% most afternoons across the region. Afternoon S to SW winds will develop today and Wednesday over the northern and eastern areas with gusts of 20-30 mph. Some daily gusty afternoon westerly winds will continue in The Delta region as well. A few afternoon cumulus buildups are expected over the higher Sierra peaks Wednesday and Thursday, but any late afternoon or early evening thunderstorms that develop will be isolated and most likely to occur just around Lake Tahoe southward.

SOUTHERN CALIFORNIA

Isolated thunderstorms possible on the central coast this evening into the overnight hours

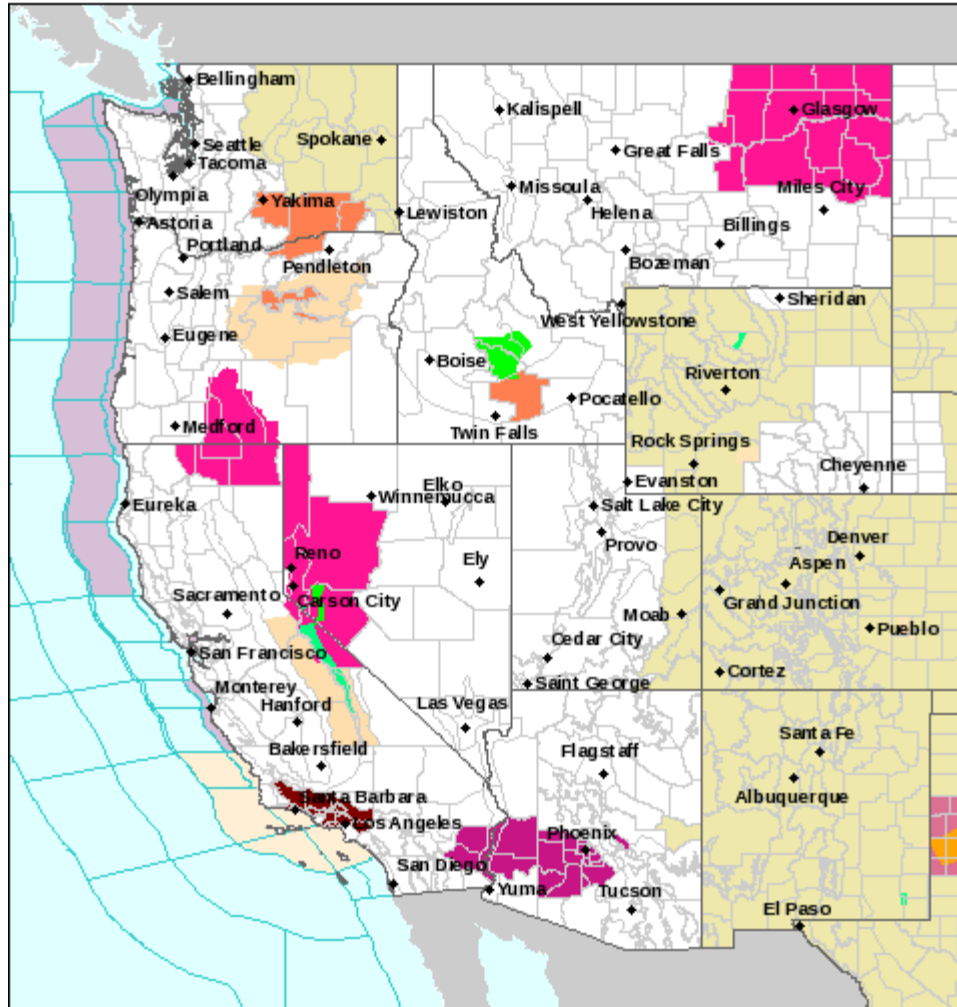

Isolated dry thunderstorms expected on the east side of the Sierras into sections of the Inyo National Forest Wednesday

Turning hot for the second half of the week into the weekend

An area of high pressure will remain stationary over the Four Corners region this week which will guide mid and high level monsoonal moisture into the state beginning Wednesday. Meanwhile, a weak disturbance off the coast may bring isolated convection to the central coast this evening into the overnight hours. This feature is moving slowly northward and may remain mostly off the coast, but there is an outside chance of one or two storms to result from this feature in San Luis Obispo, Monterey and San Benito Counties after sunset tonight. Temperatures will begin to turn warmer today with highs in the mid and upper 90s in the valleys to 108-110 in the desert. Wednesday, a greater amount of moisture in the area will lead to isolated convection across the Sierras, higher elevations of the desert and the mountains south and east of Ventura County. The area with the highest likelihood of seeing thunderstorms will be along the Sierra Crest eastward into the Inyo National Forest. A few dry strikes will be possible and a high risk has been issued for this area Wednesday. Most other areas will see highly isolated thunderstorms, mainly on desert-adjacent areas. Fewer storms are expected Thursday, but a bigger surge of moisture may lead to an increase in storms Friday into the weekend. Temperatures Thursday and Friday will be 100-103 in the valleys and 110-115 in the desert. Minimum temperatures will be very warm this week due to an increase in humidity associated with the monsoon. A bit cooler weather is possible this weekend, but the weather is expected to remain hot and unsettled overall through the middle of next week.

Cal OES RECOVERY

2017 Statewide Winter Storms

Presidential Major Disaster Declarations for January/February Winter Storms – FEMA-4301-DR-CA, FEMA-4305-DR-CA, & FEMA-4308-DR-CA

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities was approved for the following counties in at least one of the major disaster declaration: Alameda, Alpine, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba and the Tule River Tribe in Tulare County.

EMAC and Public Assistance - 2017 Winter Storms

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
- See Cal OES Mission Tasking slide for Mission Tasking information

Cal OES MISSION TASKING

Cal OES Missions

- **2017-SOC-36209:** Two Public Assistance Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
